[Monthly SEO](#) or search engine optimization is a vital aspect of the survival for all businesses in the market place today. Without constantly updating and monitoring all of the information that we supply via our web sites it is all too easy for our competition to take over and leave us waiting in the wings. By implementing monthly SEO checks we can ensure that we regularly stay ahead of current trends thus promoting us to the top of any search engine list. As market trends change on a minute by minute basis we must work at maintaining those top positions.
